Primary Education

Language

- English
- Khmer

About Me

I'm a fourth-year Computer Science student passionate about full-stack development. I have experience building web applications with Vue.js and Node.js, focusing on responsive design, API integration, and scalable back-end systems. I'm eager to apply my skills in a professional environment and continue growing as a versatile developer.

Training

2026 – present

Web Development Training (100% Scholarship)

Sponsored by the Ministry of Posts and Telecommunications (MPTC) and the CBRD Fund at ANT Technology Training Center

- Completed an intensive web development training program covering both front-end and back-end development.
- Built responsive and user-friendly web applications using modern technologies.
- Developed RESTful APIs and integrated them with front-end applications.
- Worked with databases, authentication, version control, and deployment.
- Collaborated on real-world projects using industry best practices and agile development.

Skills

Backend Development

Node.js Express.js REST API Design

Frontend Development

Vue 3 Pinia Bootstrap Tailwind CSS

Database

MySQL

Tools

Github Npm Postman Figma VS Code

Languages

C++ (OOP) JavaScript C#

Soft Skills

Communication Teamwork & Collaboration Problem - Solving
